

Marysville Public Schools

SEDPAC

(Sex Education Development Parent Advisory Council)

MISSION STATEMENT

To assure the provision of medically accurate, comprehensive reproductive health education that enables Marysville Public Schools students to make healthy behavior choices through an abstinence-based education program.

The Marysville Public Schools reproductive health program is an abstinence-based education program taught by highly qualified and certified health teachers at the elementary, middle school and high school level.

The Marysville Advisory Council supports abstinence-based education programs and maintains compliance with State mandates and current Senate Bill No. 943. SEDPAC is an advisory committee to teaching methods and materials. The committee makes recommendations that reflect the beliefs of the community concerning reproductive health.
